FORMATOS: Bottle 500 ml

MANICURE LINE

DESCRIPCIÓN

Specifically developed to cleanse the hands without using water. It deep cleanses the skin of the hands, making them silky and pleasing to the touch and protects them against drying up again. It is also highly recommended to include this activity as a cleansing protocol preceding any pedicure or manicure.

PRINCIPIOS ACTIVOS DESTACADOS

Ethyl alcohol. Denatured ethynol is used for its sanitizing and cleansing properties, eliminating unwanted oiliness from the skin.

Glycerene. An ingredient with emollient and hygroscopic properties. In other words, it absorbs moisture from the atmosphere and transmits it to the skin, softening, hydrating and protecting it.

RESULTADOS

Specifically developed to clean the skin of the hands without using water. Deep cleans the skin of the hands providing a silky and pleasant touch and avoiding its drying. It is also very recommended to incorporate it into the previous protocol of cleaning in the pedicure or manicure.

MODO DE EMPLEO

Apply an appropriate amount of gel to the area being treated with a light rotary massage until the product has been totally absorbed.

TIPO DE PIEL

All skin types
