PRODUCTO: Post-depilation oil

REF:13IB07

FORMATOS: Bottle 500 ml

POST-DEPIL LINE

DESCRIPCIÓN

Eliminates surplus wax after depilation, hydrating all skin types. Elaborated with oils of dry qualities and low dissolving power, it restores softness and elasticity to the skin without feeling greasy. It is also suitable for cleansing the wax-warming and roll-on apparatuses.

PRINCIPIOS ACTIVOS DESTACADOS

Octyl dodecanol. An excellent fat-delivery vehicle that is kind to the skin due to its good dissolving power and quick penetration of the epidermis. It is practically odourless and easily perfumed. Octyl dodecaol interacts perfectly with the skin without causing irritation.

Sweet almond oil. The oil of almonds, apart from combating inflammation and calming skin irritation, hydrates and softens all skin types. It may be applied to stretch marks or problematic areas. It is widely used to perform massage as much for its anti-inflammatory properties as for its hydrating effect. It is particularly recommended in cases of dryness, dehydration or scaling.

RESULTADOS

The oil of post-epilation treatment restores wax scraps after depilation, moisturizing all types of skin.

MODO DE EMPLEO

After depilation, moisten some cotton wool or pad with the oil and remove the surplus wax remaining on the skin.

TIPO DE PIEL

All skin types

FRECUENCIA DE USO

Daily use
