DESCRIPCIÓN

With its smooth, soft texture and absorbing capacity, it is recommended for all skin types. It hydrates, refreshes and invigorates the body instantaneously, giving elasticity to the skin

PRINCIPIOS ACTIVOS DESTACADOS

Oat extract. Easily tolerated by the skin, containing active ingredients that care for and give smoothness to the skin, and soothes irritation.

Oat extract has been included in the formula because of its decongestive, emollient and desensitizing actions. It is also a good ingredient as a coadjutant in the treatments of different dermatological pathologies.

The greatest qualities it contributes to the skin are: smoothness, hydration, firmness, elasticity and nutrition.

These properties mean that oat extract is a natural ingredient ideal for the formulation of cosmetic products designed for the care of irritated or sensitive skin.

RESULTADOS

Its formula rich in active moisturizing and softening ingredients also includes oat extract, which nourishes and optimizes the cutaneous metabolism of the whole organism. By its easy absorption, it refreshes, relaxes and tones the body instantly giving elasticity to the skin.
