DATA SHEET

PRODUCT: Super-hydrating cream for normal and dry complexions

REF:13IB27

FORMATS: Jar 200 ml

FACIAL LINE

DESCRIPTION

Effective hydrating cream, revitalizing the epidermis. It contains royal jelly, which provides the nutritive elements that skin loses with the passage of time. It is ideal as a make-up foundation cream, for use after any facial treatment or simply whenever optimal hydration is desired.

FEATURED ACTIVE PRINCIPLES

Royal jelly. Due to its great richness of sugars, lipids, proteins and vitamins, royal jelly performs a deep anti-ageing action, combating wrinkles, improving skin elasticity and performing stimulating and rejuvenating actions.

Vitamin E. An antioxidant that helps the body combat the free radicals which cause ageing. It helps the body protect itself against the dangers of the environment such as pollution and over exposure to sun rays. Vitamin E helps regenerate the skin. In beauty treatments, it is used after deep exfoliating, helping regenerate skin texture.

RESULTS

It hydrates effectively revitalizing the epidermis. Ideal as a foundation for makeup, after any facial or Provided that optimum hydration is desired

HOW TO USE

Apply by massaging gently with the tips of the fingers. Use daily as a make-up foundation cream, after any facial treatment or simply whenever optimal hydration of the skin is desired.
