DATA SHEET

PRODUCT: Cold effect gel

REF:13IB20F

FORMATS: Jar 1.000 ml, Bottle 250 ml

MESSAGE LINE

DESCRIPTION

A refreshing gel providing a cold sensation with a relaxing effect. Recommended in situations where cold application could be beneficial. It helps reduce the discomfort that can arise from practicing daily sport.

FEATURED ACTIVE PRINCIPLES

Centella. A small herbaceous plant from the Asian apiaceae family that possesses the life-prolonging factor called Youth Vitamin X. It is anti-cellulite, hydrating, bioactive and prevents fluid retention.

Indian chestnut. A great remedy for invigorating the arteries and the capillaries, since it protects against fluid retention and increases the resistance of the blood vessels. It is a decongestive, a vaso-protector and a vaso-constrictor.

RESULTS

Refreshing gel that provides a cooling sensation of relaxing effect. Indicated in those situations where Application of cold can be beneficial. Helps reduce discomfort that may arise due to activity daily and sports practice.

HOW TO USE

Apply a sufficient amount daily to the affected area performing a light rotary massage. Use preferably after exposure to the Paraiso Cosmetics Thermal activator treatment.
