PRODUCTO: Exfoliating foot cream

REF:13IB16

FORMATOS: Bottle 500 ml

PEDICURE LINE

DESCRIPCIÓN

Cleans and softens, eliminates impurities and excess dead cells, leaving the skin prepared for deep hydration. Use at least once a week by massaging the feet gently.

PRINCIPIOS ACTIVOS DESTACADOS

Glycerene. An ingredient with emollient and hygroscopic properties. In other words, it absorbs moisture from the atmosphere and transmits it to the skin, softening, hydrating and protecting it.

Camomile extract. Due to its azulene content, it is a magnificent anti-inflammatory. It also contains salicylic acid (antiseptic), group B vitamins and various glucides that contribute to the calming action. It has a wide range of application in cosmetic products, although it is particularly seen in products designed for sensitive, delicate, tired or generally irritated skins.

Essential oil of mint. A very refreshing effect due to its high menthol content. It also possesses anti-inflammatory, antiseptic, stimulating and sedative qualities.

Malaleuca oil (Tea tree oil). The essential oil of tea tree has a triple antiseptic effect, it is a bactericide, a fungicide and has healing, anti-inflammatory and deodorizing properties.

RESULTADOS

Cleans and soothes, eliminating impurities and excess dead cells, leaving the feet ready to be hydrated in depth

MODO DE EMPLEO

Use at least once a week by performing a massage. Rub the cream into the whole foot, dragging away all the contamination and excess of dead cells. Be especially rigorous around the heels and calluses. Rinse with abundant water and continue by applying a hydrating cream.

TIPO DE PIEL

All skin types

FRECUENCIA DE USO

Once a week
