PRODUCTO: Thermoactive Coffee Cream

REF:13IB52

FORMATOS: Jar 500 ml

BODY LINE

DESCRIPCIÓN

Caloric massage body cream.

PRINCIPIOS ACTIVOS DESTACADOS

Caffeine

With high concentration in polyphenols, it makes it a potent anti-oxidant agent that slows cell aging, as well as an excellent lipolytic agent

Which stimulates the elimination of fats and a strong draining and toning power.

Glycerin

Glycerin is a derivative that is obtained from vegetable oils and fats. It is a substance that is present in almost all cosmetic products,

Because by its structure can maintain the just degree of hydration of the skin, retaining the water on the skin surface.

Ivy Extract

Composed of glycosides, saponins, inositol, phosphoric acid, malic and chlorogenic. Anti-cellulite, antimycotic, decongestant and toning.

Methyl nicotinate

Vasoactive action substance, produces hyperemia and sensation of local heat.

Coffee extract

The methylxanthine and the polyphenols present in the coffee plant give it a powerful anti-cellulite power. The presence of caffeine in this extract also provides toning to the skin.

DM 60 Complex

Compound formulated with natural moisturizing agents and Enzymes that act as natural catalysts accelerating the process of elimination of fat.

RESULTADOS

Its characteristic heat effect activates the interchanges between the skin tissues and favors the absorption of the numerous active principles, creating a synergistic effect that attacks the cellulite nodules and the fat clusters.

MODO DE EMPLEO

Apply with circular movements until their total absorption. Its active ingredients produce hyperemia (redness) and in some cases itchiness that are of no importance and disappear after a short time.

TIPO DE PIEL

All skin types

FRECUENCIA DE USO

Daily use
