### DESCRIPCIÓN

Cloth bag, which contains natural elements of plants from organic farming (rosemary, lavender, thyme, orange, roses, sage) and sea salt, accompanied by sesame oil. Natural product. Biodegradable labeling.

### PRINCIPIOS ACTIVOS DESTACADOS

The pinda is used as a tool to perform the massage, exerting pressures in different places of the body. We cover the skin with sesame oil, which facilitates the massage as well as moisturize the skin, so that the hot pinda can move easily.

### RESULTADOS

A massage with Pindas will provide a moisturizing and detoxifying action for the skin and also provide the body with a deep relaxation and natural exfoliation.

### MODO DE EMPLEO

The pindas before being placed on the skin are heated to water vapor releasing their healing properties. Cover the skin with Sesame Oil and begin the massage, the patient's feet. In the areas of the body where extra heat is needed or we find a contracture, we will leave the pinda warm to benefit from its thermoactive properties and its active principles. See Protocol.
